

EWP.

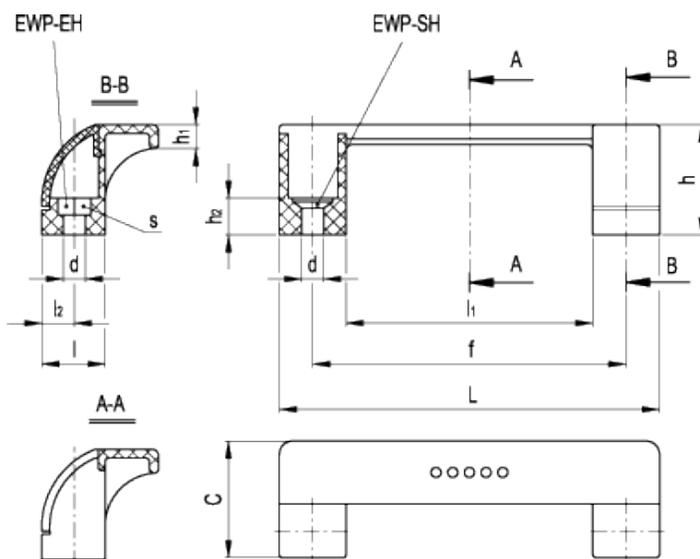

Guard wing handles

ELESA Original design

ERGOSTYLE®

technical informations

Material

Glass-fibre reinforced polyamide based (PA) technopolymer. Resistant to solvents, oils, greases and other chemical agents.

Colour

Grey-black, matte finish.

Caps

Technopolymer in Ergostyle colours, glossy finish; supplied not assembled, snap-in assembly, removable by a screwdriver. Available also as accessories sold separately (see caps table).

Assembly

- Execution EH: through holes for cylindrical-head screws with hexagon socket, hexagonal-head screws or standard lock nuts.

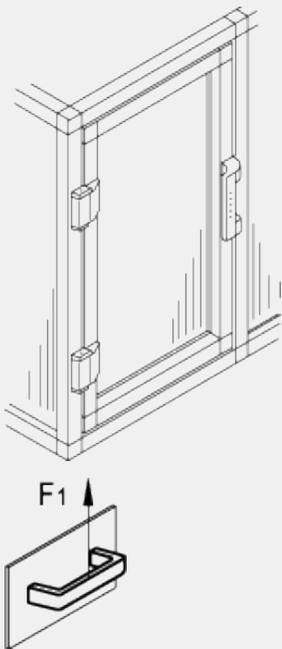

- Execution SH: through holes for countersunk head screws.

Features and applications

EWP. handles have been especially designed to fit machines guards or automation systems with single-leaf door. The coloured caps improve the visibility of the handle and offer the possibility of product customisation.

Technical data

Tensile stress: F1 value reported in the table is the result of breaking tests carried out with an appropriate dynamometric equipment under the test conditions shown in the figure with ambient temperature.
